This shows the Resident Directory. One can search for a resident by name, address, or any of the parameters below. Want to know who owns a license plate or pool pass number? We will probably have two directories. One is for board presidents who can search on any field. Another directory for regular residents can search only on name and address.

Edit **Members**

Clubhouse Key Card (Private)	Condo
E-mail Address	First Name
Front Gate Key Card (Private)	Front Gate Window Sticker (Privat
Guest Pool Passes (Private)	Last Name
Resident Pool Pass (Private)	State / License Plate (Private)
Unit Address

Update Profile   **Cancel**

Other residents can see only a small amount of the profile information. In this case, I hid my mobile number from the directory moving it from the "Mobile Number" field to the "Mobile Number (Private)" field. A $50 tablet can replace the pool book.

A resident who wants more privacy can hide his or her profile from the Directory, so other residents see only their name and picture. Or they can completely hide themselves from the Directory. Other residents won't find even their name.
